

OAK HILLS CHURCH

Hi There!

My name is Jackie and I am from Southeastern Connecticut. My husband and I attend a wonderful church in our hometown. We love the Lord, and are involved in different ministries and small groups at our church. *However*, we just had our first child, Keira. We try to take her into the service with us, and she does well during worship but ALWAYS seems to find her voice when the pastor is speaking!

So, inevitably I end up walking out with her and hanging out in the women's lounge for the remainder of the service. We do have childcare for infants but aren't quite ready to put her in there (seeing as how it is cold and flu season here). I have not been able to follow a full service since I was pregnant, which was now many months ago!

My husband and I have a Roku device and found the Oak Hills Church channel a few weeks ago. What a blessing! Typically, after we put Keira to bed, we watch one of your sermons a few nights each week. We just finished the chapter from *The Story* about King Solomon. It is wonderful, especially for me, because it is a time where I can give my undivided attention and be spiritually filled.

I thought you may like to know how God is working through you in a tiny little apartment in Connecticut via a Roku device. Praise Him for the mysterious ways in which He works!

Thank You Again,

Jackie
